

# Portable flashlight power supply / Electronics Accessories

Discipline: Product

Perfect the details! It is not only a flashlight that can send distress signal, but also a charging treasure, simple and practical. We have added many special designs to our products, such as the rounded fuselage that can prevent tumbling and sliding, the soft light lampshade that won't affect others at night, and the customized hanging rope that can prevent loss... We continue to perfect the details to give users a better experience.
